MORE THAN *Reach*

MORE THAN A Cargo Champion

SANY container reach stackers have proven themselves at the busiest, most demanding ports, intermodal yards and rail facilities. They easily handle ISO standard 20-, 30- and 40-foot containers up to 45 metric tons. A long, rugged boom and smart hydraulics allow millimeter-precise container placement at up to 50 feet. SANY reach stackers meet tough job demands at optimum efficiency. You work at great heights. SANY reach stackers deliver.

We've Got Your Back

To provide peace of mind and ensure maximum uptime, SANY backs all of its port equipment with an industry-leading two-year, 4,000-hour warranty. That's our commitment to keep your fleet running at peak performance. Our network of local dealers will partner with you for routine maintenance and be there for warranty repairs. Trust SANY to keep you moving, year-round.

**MORE THAN
MACHINES**

sanyamerica.com

MORE THAN
MACHINES™

The **high-strength, telescoping boom** is anchored by **massive derricking cylinders** for smooth lifts. High-strength steel and quality welds are a hallmark. **Cummins** engines, **Dana** transmissions and **Kessler** drive axles mean the strength, performance and efficiency you need is built right in.

Rugged Design

4

Intelligent-control technology adjusts machine operations when needed to **prevent rollover**. Smart control of the spreader can prevent the load from hitting the boom. The **auto fire-suppression** system engages extinguishers when flames are detected.

Safe Operation

1

The operator has clean view of the entire job site. Sight lines are enhanced by a **forward-rear sliding cab**, a **sloping, sculpted counterweight** and rear **camera**. **Rear radar system** installed to measure and display distance of objects from rear of counterweight.

Commanding Views

2

Load-sensing hydraulics draw the exact power needed based on demand, saving time, fuel and money. **Heavy-duty steer axles**, **wet disc brakes** and low-effort cab controls make these reach stackers ideal for intense operations in tight quarters.

Total Performance

3

MORE THAN
MACHINES

MORE THAN
MACHINES™

The sliding cab provides quick access to the engine and transmission. **Large sight glasses** make it easy to check hydraulic and brake fluid level and purity. Steer axles have a **central grease point** for quick routine maintenance. The diesel exhaust fluid (DEF) tank is easily accessed.

Ease of Maintenance

5

Separate tanks for the hydraulic system and brakes help decrease oil contamination, while an oversize hydraulic cooler lowers oil temperature to prevent premature wear.

Reliability & Uptime

6

The **spacious, comfortable cab** has well-placed controls and two displays that monitor operating/lifting conditions. The **intuitive joystick** makes it easy to control the boom and spreader. The steering column is adjustable to suit operator preference.

First-Class Cab

7

SANY designs and manufactures its own spreaders, based on years of research and on-the-job experience. The spreader extends from 20 feet to 40 feet to pick up and stack standard containers. An optional wide twist lock is also available.

SANY | 318 COOPER CIRCLE | PEACHTREE CITY | GA 30269

MORE THAN *Versatile*

45-Ton Container Spreader

Easily load, stack and unload ISO standard 20-, 40- and 45-foot containers. Our spreaders feature durable construction, lightweight design and easy operation.

SDJ450H

Rated capacity | 45 metric tons

SDJ450F

Rated capacity | 45 metric tons

Empty-Container Spreader

Transfer and stack unladen ISO standard 20-, 40- and 45-foot containers or refrigerated containers.

SDJE100H

Rated capacity | 10 metric tons

Combined Spreader

This multi-use spreader transfers and stacks ISO standard 20-, 30-, 35-, 40- and 45-foot containers, and EN284 non-stacking containers. Ideal for use on barges and in rail yards.

SDJ450P

Rated capacity | 45 metric tons

Log Grapple

Easily load, transfer and unload timber or other speciality materials with the SANY log grapple.

SWG310-R3

Rated capacity | 31 metric tons

Tube Spreader

Hoist, transfer and handle pipes, coiled steel rolls, steel tubes and bulk cargo.

STP450

Rated capacity | 45 metric tons

STH350

Rated capacity | 35 metric tons

SDJ400

Rated capacity | 40 metric tons

Tilt Spreader

Enables reach stackers to transport and unload bulk materials such as grain, fertilizer, sand, soil, scrap or wood chips. With tilt angles from 0-55 degrees, the tilt spreader makes easy work of emptying laden ISO standard 20-foot containers.

SDJS320D

Rated capacity | 35 metric tons
